

Benchmark™

Consoles

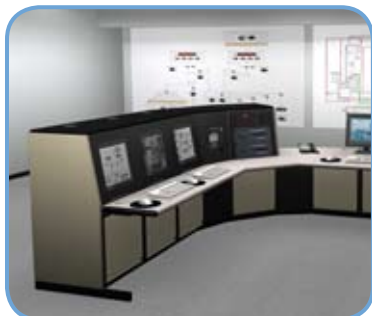

Benchmark is ideal for a variety of specialized applications

Console Profile

Originally developed for a leading integrator in the process automation industry, Benchmark offers this market segment the choice of specifying a console solution with either an open style structure or with traditional turret-style construction. Open design construction is ideal for viewing applications to video walls or ceiling mounted displays; turret construction offers enclosed system aesthetics, improved equipment security and the ability to stack and organize rack-mount equipment, surveillance equipment and larger displays effectively. Benchmark is also specified by the aviation industry for Air Traffic Control, by military installations for DOD applications, and security integrators for surveillance monitoring.

Sloped turret construction is complemented with open desktop space

Benchmark can be customized for specialized applications and hardware integration

Benchmark™

Benchmark Performance Criteria

- Heavy-duty steel construction with design options for open or enclosed console system (dedicated or mixed use)
- System design provides touch-screen and service access to integrated screens and rack-mount gear
- Ability to configure desktop units to double tier consoles to maximize overall footprint and use of vertical space
- Options for glass bezels or non-glass bezels for flat panel applications
- Urethane nosing for worksurfaces is a standard surface upgrade for durable and attractive edge detailing
- Ideal for security/surveillance and process control monitoring

Benchmark Specs-at-a-Glance (inches)

- Frame widths: 22/24
- Frame heights: desktop/Tier 1/Tier 2
- Surface depths: 20 (turret model)/46 (open model)
- Transitions: 15°/30°/45° in convex and concave angles
- Configuration styles: single-sided
- Frame construction: 14-ga CRS, welded
- Flat panel accommodation: surface mount; turret mount; lateral track mount
- Ergonomic upgrades: retractable keyboard platform
- CPU accommodation: integrated fixed shelf, roll-out shelf & swing out CPU door
