ERGONOMIC PLATFORM

Contour™ Advanced Consoles

Contour™ Advanced

Two-position Contour Advanced configuration featuring dual lift corner worksurfaces

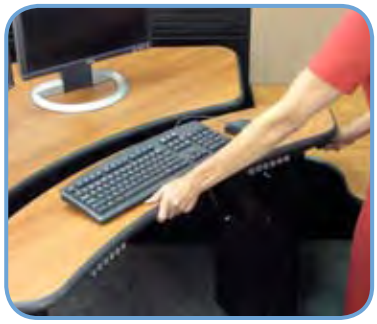
Console Profile

Contour Advanced is our second-generation product enhancement to the original Contour line with advances in component modularity and the availability of sit-to-stand adjustable worksurfaces to meet the rigors and standards common to the Public Safety sector. Ergonomic sophistication meets prevailing and future ergonomic compliance, along with office furniture options such as acoustical fabric tiles, whiteboard inserts, personal storage pedestals and interactive workstation designs to meet team demands in dispatch, call-taking and other emergency operations.

Spacious corner units offer independent height-adjustment for keyboard and monitor deck

Desktop control pads activate motorized lift systems to adjust surfaces to preferred working positions

Motorized and spring-assist keyboard platforms offer +/- tilt adjustment



Contour™ Advanced

Contour Advanced Performance Criteria

- System construction and options address specific needs for sit-to-stand worksurface performance required for 24/7 communications environments
- System specifications meet and exceed the requirements of local 9-1-1 call center customers at the local, county and federal government levels
- Office-grade furniture upgrades to provide aesthetic and functional features for open office environments
- Extensive configuration options for single workstation (administrative) and shared workstation designs
- Suitable for small to large-scale centers

Contour Advanced Specs-at-a-Glance (inches)

- Frame widths: 24/30/36/48/60/72
- Frame heights: desktop/Tier 1/Tier 2 (based on 16-inch wall standard)
- Surface depths: 24/30
- Transitions: 90° angle (full corner)
- Configuration styles: single-sided, double-sided, team/shared
- Ergonomic upgrades: sit-to-standard height adjustable for linear surfaces and full corner units; spring-assist keyboard platform; retractable keyboard platform
- Frame construction: 12-ga CRS, welded
- Flat panel accommodation: arm mounts via surface or slatwall attachment
- CPU accommodation: dedicated storage modules with retractable service shelf; integrated swing caddy; suspended CPU mounting for adjustable surfaces; high-capacity locker units with retractable shelving
