

Contour™ Basic

Consoles

Contour™ Basic

Contour Basic configured with slatwall interfaces and open desktop space

Console Profile

Contour Basic is our most affordable console system, offering a comprehensive selection of “building block” components to design around the architectural walls of a room, or to create configurations which provide excellent sightlines to video walls in command environments. Contour Basic offers the unique feature of being designed with three levels of display walls for true workstation privacy, or to accept up to three levels of flat panels to maximize the use of vertical space. With a wall dimension of less than six-inches, Contour can be easily space planned like typical office furniture while providing exceptional structural, hardware and technology accommodation beyond conventional furnishings.

Contour Basic can be configured up to three tiers of display walls to mount three levels of flat panels

3-tier Contour Basic configuration

Slatwall interface accepts a variety of screen arm mounts and storage components

Contour™ Basic

Contour Basic Performance Criteria

- System construction permits up to three tiers of display walls for flat panel vertical stacking
- All service panels and hardware storage units can be locked for additional console security
- All steel construction, including service panels, is ideal for 24/7 environments that require console ruggedness
- Most cost effective console from e-Systems Group

Contour Basic Specs-at-a-Glance (inches)

- Frame widths: 24/30/36/48/60/72
